

Name	Position	Research interest	E-mail
Ahmed Alghuraybi	PhD Researcher	Normal fault growth, Rift basins, Seismic reflection data, Fault seal analysis, Basin analysis	a.althuraybi19@imperial.ac.uk
Carl Jacquemyn	Research Fellow	Geological modelling	c.jacquemyn@imperial.ac.uk
David Pedreros-Bastidas	PhD Researcher	Sedimentology, Basins evolution, Deep marine deposits, Contourites	drp418@ic.ac.uk
Ekta Aggarwal	PhD Researcher	Remote Sensing & GIS; Landscape-Human interaction	e.aggarwal21@imperial.ac.uk
Gabriela Salomao Martins	PhD Researcher	Salt tectonics, structural geology, geological evolution of sedimentary basins	g.salomao-martins18@imperial.ac.uk
Gary Hampson	Professor of Sedimentary Geology	Understanding of depositional systems and their preserved stratigraphy, characterisation of rocks and fluid flow in the subsurface	g.i.hampson@imperial.ac.uk
Jonah McLeod	PhD Researcher	sedimentology, surface processes, geomorphology	jonah.mcleod18@imperial.ac.uk
Matthew Morris	PhD Researcher	Landscape Evolution, Dynamic Topography	matthew.morris15@imperial.ac.uk
Nahin Rezwan	PhD Researcher	Basin dynamics, Sea-level dynamics, Geomorphology and Tectonics	nrezwan@ic.ac.uk
Rebecca Bell	Senior Lecturer	Tectonics, seismic reflection data, continental rifting, subduction processes	rebecca.bell@imperial.ac.uk
Xiang Yan	MSci student	Source to sink sediment routing	xiang.yan19@imperial.ac.uk
Xinyu Dong	PhD Researcher	Petroleum Geology	x.dong20@imperial.ac.uk
Ziqiang Zhou	PhD Researcher	Sediment routing system	z.zhou22@imperial.ac.uk
