## Programme Overview

The programme is run by Imperial College Business School and is a one-year full-time programme. The financial world's demand for innovation has always been intense. Today, as the international markets become increasingly complex, the need for understanding advanced systems and sophisticated financial instruments has never been greater. Success in these markets calls for intellectual rigour. Against this background, the MSc in Investment and Wealth Management equips you to meet the contemporary challenges and enjoy the rewarding career opportunities offered by a dynamic industry. It aims to combine both a need for technical acumen with a practical knowledge of legal, ethical and historical context.

The programme commences in September with examinations taking place at the end of each term. Six of the programme's taught units are compulsory\* and are taken in the first two terms. In addition, you will take four elective\*\* modules, which are taught in the spring and summer terms, and you are required to successfully complete the Foundations in Investment & Wealth Management module. Examinations in the relevant compulsory modules take place directly at the end of the term in which they are taught. The elective modules comprise of 27 hours of lectures and are normally examined directly at the end of the term in which they are taught. You will also devote the summer term and the normal summer vacation period to working on your Applied Project. You will be assessed by an Individual Applied Project of 3,000 words and a short presentation. If you are on an approved work placement, you may, with permission from the Academic Director, be allowed to write a report which incorporates the learning from your placement. As an alternative to the Applied Project, you can, with permission from the Academic Director, write an Individual Research Project which is an original piece of work not exceeding 10,000 words. Completion of a Research Project will require you to take one less elective. The Research Project is particularly suited to those wanting to do a PhD after their MSc programme.

In addition, you will be required to complete an online Accounting Primer, an online Ethics & Professional Standards in Finance module, an online Finance Careers Primer and a Career & Professional Development module, although these do not contribute to your degree outcome.

You may also take the optional online module Introduction to Maths and C++.

Graduates from this programme typically progress to careers in; asset/ investment management, investment banking, consulting, risk management, sales/ trading, hedge fund, government, real estate, fintech and private equity.

\*Compulsory modules are those which are designated as necessary to be taken as part of the programme syllabus. Compulsory modules can be compensated.

\*\* Elective modules are those which are in the same subject area as the field of study and are offered to students in order to offer an element of choice in the curriculum and from which students are able to select. Elective modules can be compensated.

## Learning Outcomes

The programme provides opportunities for postgraduate students to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas:

The programme aims to provide quantitative and analytic skills that enable students to enter the financial services sector particularly targeting the money management industry directly, or indirectly through an advisory role. Students who complete the programme successfully will be able to:

- Demonstrate knowledge of fundamental finance theories and models and their use and context in real financial markets;
- Apply mathematical tools to complex financial problems including the management and matching of financial risks;
- Demonstrate a strong knowledge of the economics, legal and regulatory framework of the money management industry, and understanding of how the different institutions cater for the different financial needs of their respective client base;

- Use a range of programming tools to develop live implementations of financial models and use these implementations in practical simulations;
- Conduct financial statement analysis and valuation exercises; analyse and evaluate investment corporate decisions.
- Analyse and evaluate investment decisions and data: apply econometric theory and software to draw valid conclusions about data.

The Imperial Graduate Attributes are a set of core competencies which we expect students to achieve through completion of any Imperial College degree programme. The Graduate Attributes are available at: [www.imperial.ac.uk/students/academic-support/graduate-attributes](http://www.imperial.ac.uk/students/academic-support/graduate-attributes)

### Entry Requirements

Academic Requirement	<p>Normally an Upper Second Class Honours Degree (or international equivalent) in a highly quantitative discipline such as Finance, Accounting, Economics, Mathematics, Engineering, Science or Business.</p> <p>The Business School does not award credit for Prior Learning (Recognition of Prior Certified Learning (RPCL) or Recognition of Prior Experiential Learning (RPEL)).</p>
Non-academic Requirements	<p>When selecting candidates, the School uses a range of criteria: academic ability, future potential, and the commitment which students will bring to the programme. Candidates should have a well-researched career plan with clear short and long term goals.</p> <p>Two references are also required.</p>
English Language Requirement	<p><a href="#">Higher requirement</a> IELTS score of 7.0 overall (minimum 6.5 in all elements).</p>
Admissions Test/Interview	<p>You are required to take an online interview via the Kira Talent platform. All interviews are reviewed and scored as part of the Admissions process.</p>

The programme's competency standards documents can be requested from the School's Education Quality Office.

### Learning & Teaching Approach

#### Learning and Teaching Delivery Methods

- Lectures
- Practical classes
- Equipment/technique demonstrations (e.g. Bloomberg)
- Seminars
- Workshops
- Case studies
- Group work exercises
- Formal presentations
- Pre-programme on-line modules
- On-line discussion forums
- On-line lecture materials
- Interactive content including video and module quizzes
- Work Placement Opportunity

Please refer to the Teaching Toolkit for advice on learning and teaching approaches:

<https://www.imperial.ac.uk/staff/educational-development/teaching-toolkit/>

#### Overall Workload

Your overall workload consists of face-to-face sessions and independent learning. While your actual contact hours may vary according to the optional modules you choose to study, the following gives an indication of how

much time you will need to allocate to different activities at each level of the programme. At Imperial, each ECTS credit taken equates to an expected total study time of 25 hours. Therefore, the expected total study time is 2250 hours per year.

Depending on the elective modules selected, you may spend approximately 20% of their total study hours on lectures, seminars and similar, and around 80% of your time on independent study.

## Assessment Strategy

### Assessment Methods

Modules will be assessed by one or more of the following types of assessment methods:

- Essays
- Continuous assessments
- Written Examinations/Tests
- Multiple Choice Tests
- Formal Presentations
- Reports
- Case Studies
- Participation

Assessed modules comprise coursework that is designed to help you master key elements of the subject and, in part, to help prepare you for the final assessment, which is typically a report or examination. Examinations are scheduled throughout the year, generally at the end of the term the module is taught or at the start of the subsequent term. Exact timings are detailed in the programme overview section above. The format of examinations may be written, computer-based or timed remote assessment.

Coursework weighting varies among modules. The various assessments allow you to demonstrate that you have met the intended learning outcomes for each module and these collectively contribute towards your achievement of the programme's learning outcomes, detailed above.

Assessments are designed to ensure that you have acquired the core knowledge and skills expected of a Business School graduate and that you are able to apply these in your career aspirations upon completion of the programme.

### Academic Feedback Policy

Feedback can take many forms. During lectures and classes, you will receive verbal feedback on the ideas that you contribute to discussions and on in-class presentations. The online teaching materials contain exercises with built-in, immediate, feedback that is received when you submit an answer.

The School aims to provide feedback on coursework within two weeks. This will be sent in written form to the individual or the group, as appropriate. Academic staff may also provide verbal feedback of a general nature in class or posted to our virtual learning environment. Office hours offered on all modules also provide an opportunity for individual feedback.

The School aims to provide provisional examination grades twenty-five days from the end of the examination period. General feedback to the cohort is provided on examination performance, usually in written form. If you need to resit an examination you may also approach the module leader for feedback on your performance in the first sitting.

You will be provided with a percentage grade for coursework and examinations with the final numerical mark only confirmed after the Board of Examiners Meeting and then released by Registry. Grades received during the year are deemed provisional until confirmed by the Final Board of Examiners.

The College's Policy on Academic Feedback and guidance on issuing provisional marks is available at: [www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/](http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/)

### Re-sit Policy

Mitigating Circumstances Policy
The College's Policy on Mitigating Circumstances is available at: <a href="http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/">www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/</a>

Additional Programme Costs		
This section should outline any additional costs relevant to this programme which are not included in students' tuition fees.		
Description	Mandatory/Optional	Approximate cost
Costs related to the international electives	Optional- if international elective is selected	£1000 - £1500* *exact costs vary by location

**Important notice:** The Programme Specifications are the result of a large curriculum and pedagogy reform implemented by the Department and supported by the Learning and Teaching Strategy of Imperial College London. The modules, structure and assessments presented in this Programme Specification are correct at time of publication but might change as a result of student and staff feedback and the introduction of new or innovative approaches to teaching and learning. You will be consulted and notified in a timely manner of any changes to this document.

Programme Structure					
Year 1 – FHEQ Level 4 You will study all compulsory modules. On the Applied Project route, you must select 4 electives. On the Research Report route, you must select 3 electives.

Credit Total					90

## Progression and Classification

### **Award and Classification for Postgraduate Students**

#### **Award of a Postgraduate Degree (including MRes)**

To qualify for the award of a postgraduate degree a student must have:

1. accumulated credit to the value of no fewer than 90 credits at level 7;
2. and no more than 15 credits as a Compensated Pass;

#### **Classification of Postgraduate Taught Awards**

The College sets the class of Degree that may be awarded as follows:

1. Distinction: 70.00% or above.
2. Merit: 60.00% or above but less than 70.00%.
3. Pass: 50.00% or above but less than 60.00%.

For a Masters, your classification will be determined through the Programme Overall Weighted Average and the designated dissertation or final major project module meeting the threshold for the relevant classification band.

Your degree algorithm provides an appropriate and reliable summary of your performance against the programme learning outcomes. It reflects the design, delivery, and structure of your programme without unduly over-emphasising particular aspects.
