

Score:	0	2	1	0	Notes
Views	Sufficient views to describe the component without creating complicated drawing (2 or 3 views, plus isometric (optional))	Too many views leading to cluttered drawing but component fully described	Too few views to describe component	Enter note	
3rd Angle	Correct layout for 3rd angle projection	1st angle projection used	layout is not to any standard	Enter note	
Features	Boss and through holes fully dimensioned and positioned on centre line (accept hole in boss at depth of 10 mm if correctly dimensioned in all views)	Boss and through holes fully dimensioned but not on centre line	Features missing	Enter note	
Scale	Appropriate scale for paper size - 2:1, 3:1 etc	Scale results in very cluttered or sparse drawing	scale not consistent or identified	Enter note	
Title box	Fully complete including drawn by and date, dimensions units and material choice	Partially complete	Not complete/missing	Enter note	
Dimensions	Fully dimensioned with no repeats	One or two dimensions repeated or overlooked	Several dimensions missing or repeated	Enter note	
Overall clarity	Publishable - well laid out and easy to read	Publishable with some changes - generally well laid out but some overlap of dimension lines and part lines etc	Difficult to read - needs significant editing	Enter note
